

MONTHLY PRICE INDICES FOR ASPHALT CEMENT

The following monthly "price indices" have been established by the Louisiana Department of Transportation and Development for use in making price adjustments for asphalt cement, polymer modified asphalt cements, and performance graded asphalt cements used in construction contracts. The price indices are shown both in dollars per ton and dollars per megagram. Beginning with the December 2000 letting, special provisions for payment adjustments for asphalt materials and fuels will be reinstated in contracts having contract times of 100 working days or 180 calendar days or greater and having specified minimum quantities of asphaltic concrete or other specified pay items. A list of past price indices is available by calling (225) 379-1736 or (225) 379-1440.
