

MONTHLY PRICE INDICES FOR ASPHALT CEMENT

The following monthly “price indices” have been established by the Louisiana Department of Transportation and Development for use in making price adjustments for asphalt cement used in construction contracts. The price indices are shown both in dollars per ton and dollars per megagram. Special provisions for payment adjustments for asphalt materials and fuels are included in applicable contracts. A list of past price indices is available by calling (225) 379-1736.

Also, please be advised that we will exclude from the index calculations any price quotation that exceeds ± 25 percent of the average of all prices submitted. We believe that by excluding the extreme outliers, the adjusted price index will be a better indication of pricing trends.
